

Christmas markets

On Wednesday our class went to the Christmas markets. I was very happy because , I love it. Before we went to the Christmas markets, we visited CHILDREN MUSEUM. It was great fun.

The first, we could see some small shops , bank, supermarkets, hospital and another places. Then we sat on the floor and lady in the museum told us some about that. After it we tried some jobs for example: a doctor, a customer in the shop, a shop assistant, a nurse, a builder and another jobs. Then we went to the Christmas markets and our teacher said: „It’s twelve o’clock, when will be one o’clock p.m. you must come here and we come back to school. “So we went shopping. There were many great things example: a one meter long licorice, many sweets or chocolates, gingerbreads, braceles, magnets on fridge and etc. The first things, what I bought, were two magnets on fridge: an angel and one little bird. The angel was for my father and one little bird was for my brother Simon. After it I bought two licorice snakes for me. Then I bought one pink and purple bracelet. After it I was thirsty so, I bought something to drink for me. The bracelet was for my mother. I thought, my mother will be very happy because, she likes bracelets. When I was hungry, I bought a cake with cinnamon.

There was a man near the markets who was wearing a big golden hat with a lot of shells, golden trousers, a golden coat and big golden shoes, everywhere were shells. He couldn’t move. But when someone put him some money into the bowl, he started to play on the strange toys for example: a rat, a monkey and three-four pigs. It was very funny.

When we finished our shopping, we came back to school. Everyone bought some presents for their members of a family. It was very nice day for our class.

We were very happy what you can see in these photos:
