

Driny

We went on a trip to a cave near Modra. The cave is called Driny. We met at 8am in front of our school. Pupils from 8.A and 9.A took part on a trip. A reason of this trip was collected and improved our relations in the class. A journey to the cave lasted about 1 or 1:30 hour. On the bus we sat and we talked together. The bus stopped near the cave but we had to walk to the cave.

When we came to the cave most of us needed to go to the toilet. When we saw the cave-entrance it was between two stones. Inside there was colder than outside. It was 7°C. My classmates had sweatshirts.

Then we stopped into the cave and the light switched off. It was strange. When we were walking the bats started to fly around us. We could see a cave-lagune which is a small lake and fairies swim here every night. Some sculptures was called 'women tongues'.
