

Cave Driny

On Monday we were on the trip .We were there with 8.A. Class. The weather was cloudy and after the lunch it was sunny. We were there because we had a new classmates. Our bus was very old . Behind me was sitting new classmate Martin Molnár. He is shy but very clever. All the time in the bus were talking with Martin and Dorka . When we got off we went on the hill because there was a ceve Driny .The hill was very step. And our bags were very heavy so we left our hevly things on the bus . When we went on the cave, the temperature was about 7*C. There was too cold I hate cold the most thing I hate is cold . I had a red nose and purple hands . I hold my friends hand because she felt so lost there . I love her . In the cave I was scared . Our guide was prerry and clever . He was tall and slim . I like clever people because I can learn a new things.In the bus a had a stomach ache . Then I stayed in front of with my new friend Katka .We were there about hour and half . We were very happy when we saw our classmates . In Modra I bought :chocolate cake , hamburger and kebab . The kebab in Modra was very tasty . The journey was very long and the time went slowly . This trip was good . I made a new friends . I remember that garden the Červený Kameň was so pretty . I was there second time . I was there when I was 6 years old .
